

SAGAR KUMAR

Automation Test Engineer (QA) | Functional & API Testing | Playwright

+91 8430296626 | sagat56780@gmail.com | linkedin.com/in/sagar-kumar-java-developer | github.com/sagarkumar446 | sagarkumar446.github.io

PROFESSIONAL SUMMARY

QA Automation Engineer with ~2 years of experience testing open-source products (**Krayin CRM, Bagisto**) at Webkul. Skilled in **manual, functional, UI, API, and E2E automation** testing. Built and maintain **18+ Playwright test scripts**, contributed **24+ PRs** to the Krayin CRM open-source repository (23.7k+ stars), and worked on **CI/CD (GitHub Actions)** and **Docker** demo environments. Strong foundation in **Java, Spring Boot, React, SQL** from full-stack development experience.

EXPERIENCE

Associate Quality Analyst → QA Automation Engineer

Jan 2025 – Present

Webkul Software Pvt. Ltd., Noida, UP

- ▶ Perform **functional, regression, UI, and E2E testing** for Krayin CRM and Bagisto across releases, covering lead, contact, quote, product, mail, and automation modules.
- ▶ Designed and executed **test cases, test scenarios, and bug reports**; collaborated with developers to triage and resolve defects in an **Agile** (Scrum) workflow.
- ▶ Wrote **18+ Playwright E2E automation scripts** (Page Object Model) for admin modules — leads, contacts, quotes, mail (inbox/sent/draft/trash), products, automation, webhooks, campaigns, tags, email templates, attributes, users & groups — raising test coverage and reducing manual effort.
- ▶ Contributed **24+ pull requests** to the **Krayin CRM open-source repository (krayin/laravel-crm)**, including Playwright specs, a **PHPUnit language-file validation test**, and release changelogs; gained **Collaborator** badge.
- ▶ Worked on **CI/CD** — updated the **GitHub Actions Playwright workflow** (`admin_playwright_tests.yml`) and added DB-prefix support to the CI pipeline for parallel test runs.
- ▶ Performed **REST API testing** with Postman and wrote **PHPUnit unit/feature/integration tests** for the **Krayin REST API** package (auth, leads, pipelines, activities, contacts, swagger docs).
- ▶ Created and maintained **Docker-based Krayin demo environments** for QA and client demo purposes.
- ▶ Leveraged **AI tools** for test case generation, data creation, and debugging to improve efficiency.

Software Developer (Intern)

Aug 2024 – Nov 2024

Trayistats AI Technologies, Noida, UP

- ▶ Developed and maintained web features using **JavaScript, HTML, CSS**, and backend services; wrote and tested APIs and database operations.

Full-Stack Developer (Intern)

Jul 2023 – Aug 2024

QSpiders Software Testing Training Institute, Delhi

- ▶ Built full-stack applications with **Java, Spring Boot, PostgreSQL**, and front-end technologies; gained foundation in **SDLC/STLC** and testing practices.

PROJECTS & OPEN SOURCE

Restaurant Management System — Full Stack

Backend: github.com/sagarkumar446/restorent_management_system | Frontend: github.com/sagarkumar446/restorent_management_front_end

- ▶ Backend: **Spring Boot 3.3.2, Java 17, JPA/Hibernate, MySQL** — 24 REST endpoints for auth, orders, reservations, menu, and loyalty with validation and pagination.
- ▶ Frontend: **React 18, Redux Toolkit, MUI, Tailwind CSS** — OTP authentication (email) and Razorpay payment integration.
- ▶ Tested **APIs (Postman/cURL), database operations, and end-to-end UI workflows**; documented API specs and testing guide.

Krayin REST API — API Testing & Test Cases

github.com/sagarkumar446/rest-api | [Krayin Contributions \(PRs\)](#)

- ▶ Wrote **PHPUnit unit, feature, and integration test cases** for the Krayin REST API package — auth, leads, pipelines, activities, contacts, and Swagger documentation endpoints.
- ▶ Validated request/response schemas, status codes, authentication (Sanctum), and data integrity across API endpoints.

Krayin CRM — Open Source Contributions

github.com/krayin/laravel-crm | [Professional GitHub](#)

- ▶ Automation (Playwright), API/functional testing, CI/CD pipeline updates, and Docker demo setup for the Krayin CRM open-source project.

TECHNICAL SKILLS

- | | |
|---|--|
| ▶ Testing: Functional, Regression, UI, API, End-to-End, Cross-browser | ▶ Languages: Java, JavaScript, TypeScript, PHP, SQL, HTML, CSS |
| ▶ Automation: Playwright (POM), Selenium (Basics), PHPUnit, Test Case Design | ▶ Backend: Spring Boot, JPA/Hibernate, Laravel (PHP) |
| ▶ API Tools: Postman, REST API, Swagger, cURL, Sanctum Auth | ▶ Frontend: React, Redux Toolkit, MUI, Tailwind CSS |
| ▶ CI/CD & DevOps: GitHub Actions, Docker, Git, GitHub | ▶ Databases: MySQL, PostgreSQL |
| | ▶ Concepts: SDLC, STLC, Agile/Scrum, Bug Lifecycle, Page Object Model |

EDUCATION

B.Tech – Computer Science & Engineering

2019 – 2023

Delhi Institute of Engineering & Technology
